

NRRC'S QUALITY FRAMEWORK

“

At Nuclear and Radiological Regulatory Commission (NRRC) providing quality and achieving beneficiaries' satisfaction is not just a landmark but a continuous journey of dedication and improvement. For us beneficiaries' satisfaction is at the core of our business philosophy, and we believe it can be best achieved by establishing and maintaining an effective Quality Management System. Therefore, we at NRRC remain committed to the following principles:

”

“ We at NRRRC expect all our stakeholders to comply with this Quality Framework and its values and invite them to help us improve our Quality Management System through constructive feedback and positive initiatives. ”

Beneficiaries' Satisfaction

To consistently meet and even exceed our beneficiaries' expectations by using ethical business practices that adds value to us and all our stakeholders.

Employees

To provide our employees with state of the art work environment and resources that allow them to express themselves freely and allow us to build a highly competent team that can uphold the true values of NRRC.

Legislations and Obligations

To ensure compliance of NRRC with all applicable governmental legislations and international obligations. In addition, to ensure compliance of our beneficiaries with applicable respective regulations by maintaining a graded enforcement approach with a range of tools available to intervene when necessary.

Improvement and Involvement

To establish and maintain an effective Quality Management System that revolves around the culture of participation and improvement at all levels.
